ENERGY SAVING

PUBLIC LIGHTING MODERNIZATION, BOSNIA-HERZEGOVINA

Summary: Replacement of conventional lighting fixtures to modern LAD lamps.

Investment: 5.658.000 EUR

Location: Banja Luka, Bosnia-Herzegovina

Term: 5 years

Interest rate: 5%

Grace period: 1 year

PROJECT

The amount of funding requirement represents the total amount necessary for the replacement of 23,999 conventional lighting fixtures with LED lamps on the territory of Banja Luka city that will generate substantial savings on the electricity costs of the municipality.

PROJECT OWNER

The company is an international LED lighting development and manufacturing company. In cooperation with its partners and suppliers the project owner is committed to creating, developing and delivering turnkey IOT (Internet of Things) and LED lighting solutions that fit our clients needs in terms of energy, savings and sustainability. The investor will use subcontractors for installation, and in addition will also open a representative office with info desk in Banja Luka where information will be kept and constant monitoring of the entire process.

CLIENT

Banja Luka is the second largest city of Bosnia - Herzegovina. It serves as the capital of the Republika Srpska (Bosnian Serb Republic), one of the two largely autonomous entities that make up the country of Bosnia and Herzegovina. The municipality of Banja Luka will pay a monthly fee for the led lights and their installation during the 5,5 years long period, secured by bills of exchange for all the scheduled payment amounts.
